

## IN THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application.

1. (Currently Amended) A method for controlling weight in mammals comprising: feeding a mammal food ~~and an effective~~ containing an amount of a liposome-encapsulated anti-lipase antibody ~~to control~~ effective to decrease body weight gained per unit of food of said mammal after eating the food; thereby controlling the weight of said mammal.
2. (Previously Presented) The method of claim 1 wherein said anti-lipase antibody is an avian antibody.
3. (Previously Presented) The method of claim 2 wherein said liposome-encapsulated anti-lipase antibody is in a wet state and freeze drying said liposome-encapsulated anti-lipase antibody.
4. (Cancelled)
- 5.- 11. (Canceled).
12. (Currently Amended) The method of claim 1 wherein said ~~liposome-encapsulated anti-lipase antibody~~ liposome is formed prior to said feeding.
13. (Currently Amended) The method of claim 1 wherein said ~~animal~~ food comprises dietary lipid.
14. (Currently Amended) The method of claim 1 wherein said ~~animal~~ food comprises 25 to 1000 mg of said liposome-encapsulated anti-lipase antibody per kilogram of ~~animal~~ food.
15. (Currently Amended) The method of claim 1 wherein said ~~animal~~ food comprises at

least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food..

16. (Currently Amended) A composition for controlling weight in mammals, comprising: a mixture of food for a mammal and an ~~effective~~ amount of a liposome-encapsulated anti-lipase antibody ~~to control~~ effective to decrease body weight gained per unit of food of said mammal after eating the food composition, thereby controlling the weight of said mammal.

17. (Previously Presented) The composition of claim 16 which contains 25-1000 mg of said liposome-encapsulated anti-lipase antibody per kilogram of said food.

18. (Previously Presented) The composition of claim 16 wherein said anti-lipase antibody is an avian anti-lipase antibody.

19. (Currently Amended) The composition of claim 16 wherein said liposome-encapsulated anti-lipase antibody is in ~~one of~~ a wet state or and a freeze dried state.

20. - 21. (Canceled)

22. (Previously Presented) The composition of claim 16 wherein said food comprises dietary lipid.

23. (Currently Amended) The composition of claim 16 wherein said food comprises at least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food.

24. (Previously Presented) The composition of claim 23 wherein said anti-lipase antibody is an avian anti-lipase antibody.

25. - 42. (Cancelled)
